Analyzing English in a Global Context Anne Burns 2013-10-18 Devised in collaboration with the Open University and Macquarie University, Australia, Analysing English in a Global Context is specifically designed for the postgraduate student market, as well as for teachers of English as a second or foreign language throughout the world. This is a groundbreaking Reader which includes specially commissioned pieces as well as classic texts and provides a global perspective on the changing uses and forms of English and its impact on language teaching contexts. Students' skills in analysing these forms will be developed through an examination of the major functional models and their strengths and weaknesses.

An Introduction to the Grammar of English Elly van Gelderen 2002-01-01 This textbook introduces basic concepts of grammar in a format which should encourage readers to use linguistic arguments. It focuses on syntactic analysis and evidence. It also looks at sociolinguistic and historical reasons behind prescriptive rules.

Routledge Encyclopedia of Language Teaching and Learning Michael Byram 2013-06-26 The Routledge Encyclopedia of Language Teaching and Learning is an authoritative reference dealing with all aspects of this increasingly important field of study. Offering a comprehensive range of articles on contemporary language teaching and its history, it has been produced specifically for language teaching professionals and as a reference work for academic studies at postgraduate level. In this new edition, every single entry has been reviewed and updated with reference to new developments and publications. Coverage has been expanded to reflect new technological, global and academic developments, with particular attention to areas such as online and distance learning, teacher and learner cognition, testing, assessment and evaluation, global English and teacher education. Themes and disciplines covered include: Methods and materials, including new technologies and materials development Contexts and concepts, such as mediation, risk-taking in language learning and intercultural communication Influential figures from the early days of language teaching to the contemporary Related disciplines, such as psychology, anthropology and corpus linguistics It covers the teaching of specific languages, including Japanese, Chinese, Arabic and African languages, as well as English, French, German and Spanish. There are thirty five overview articles dealing with issues such as communicative language teaching, early language learning, teacher education and syllabus and curriculum design. A further 160 entries focus on topics such as bilingualism, language laboratories and study abroad. Numerous shorter items examine language and cultural institutions, professional associations and acronyms. Multiple cross-references enable the user to browse from one entry to another, and there are suggestions for further reading. Written by an international team of specialists, the Routledge Encyclopedia of Language Teaching and Learning is an invaluable resource and reference manual for anyone with a professional or academic interest in the subject.

Barron's how to Prepare for the TOEIC Lin Lougheed 1999 Includes an overview of the TOEIC test and offers six sample tests.

Teaching Secondary English Daniel Sheridan 2013-03-07 This new edition of Teaching Secondary English is thoroughly revised, but its purpose has not changed. Like the popular first edition, it balances content knowledge with methodology, theory with practice, and problem-posing with suggested solutions. The tone and format are inviting, while addressing student-readers on a professional level. Rather than attempting to cover everything, the text provides a framework and materials for teaching a secondary English methods course, while allowing considerable choice for the instructor. The focus is on teaching literature, writing, and language--the basics of the profession. Attention is given to the issues that arise as one seeks to explore what it means to "teach English." The problems and tensions of becoming a teacher are discussed frankly, in a manner that helps students figure out their own attitudes and solutions. Features: * Focuses on a few central concepts in the teaching of secondary English * Provides an anthology of 22 readable and challenging essays on key topics--allowing students to hear a variety of voices and opinions * Includes an applications section for each reading that extends the discussion and asks students to explore problems and grapple with important issues related to the articles * Offers short writing assignments in questions that follow the readings and in brief writing tasks in the applications, and a longer writing assignment at the end of each chapter * Addresses student readers directly without talking down to them New in the Second Edition: * This edition is shorter, tighter, and easier to use. * The opening and concluding chapters more directly address the concerns of new teachers. * The anthology is substantially updated (of the 22 articles included, 14 are new to this edition). * Each essay is preceded by a brief introduction and followed by questions for further thought. * There are fewer applications, but these are more extensive and more fully integrated within the text. * A writing assignment is provided at the end of each chapter. * Interviews with college students--before and after student teaching--are included in Chapters 1 and 6. * The bibliographies at the end of each chapter are fully updated.

Analyzing Grammar Paul R. Kroeger 2005-05-05 Analyzing Grammar is a clear introductory textbook on grammatical analysis, designed for students beginning to study the discipline. Covering both syntax (the structure of phrases and sentences) and morphology (the structure of words), it equips them with the tools and methods needed to analyze grammatical patterns in any language. Students are shown how to use standard notational devices such as phrase structure trees and word-formation rules, as well as prose descriptions. Emphasis is placed on comparing the different grammatical systems of the world's languages, and students are encouraged to practice the analyses through a diverse range of problem sets and exercises. Topics covered include word order, constituency, case, agreement, tense, gender, pronoun systems, inflection, derivation, argument structure and grammatical relations, and a useful glossary provides a clear explanation of each term. Accessibly written and comprehensive, Analyzing Grammar is set to become a key text for all courses in grammatical analysis.

Engaging the Next Generation of Aviation Professionals Suzanne K. Kearns 2019-11-08 Engaging the Next Generation of Aviation Professionals is an edited volume that brings together a diverse set of academic and professional perspectives within the three themes of attracting, educating, and retaining the next generation of aviation professionals (NGAP). This compilation is the first academic work specifically targeting this critical issue. The book presents a rich variety of perspectives, academic philosophies, and real-world examples. Submissions include brief case studies, longer scholarly works from respected academics, and professional reflections from individuals who have made important contributions to their field. The book includes academic chapters that explore the topic from a more theoretical standpoint yet are accessible and understandable to a professional audience. These are complemented by both broad and specific practice examples that describe initiatives and applications occurring in the industry around the three themes. All submissions include descriptive insights, experiences, and first-hand accounts of accomplishments, intended to support the work of other professionals managing NGAP issues. This work will be valuable to anyone involved in attracting, educating, or retaining NGAP, including academics, operators, national and international regulators, and outreach coordinators, among many others.

1001 Questions and Answers on the Theory and Practice of Teaching Benjamin Adams Hathaway 1886

The Teacher's Grammar of English with Answers Ron Cowan 2008-05-26 "The Teacher's grammar of English enables English language teachers and teachers-in-training to fully understand and effectively teach English grammar. With comprehensive presentation of form, meaning, and usage, along with practical exercises and advice on teaching difficult structures, it is both a complete grammar course and an essential reference text."--Back cover.

Weld's Progressive English Grammar Allen Hayden Weld 1859

Navigating English Grammar Anne Lobeck 2013-09-23 An engaging and fresh take on the rules and politics of English grammar, written in lively prose. It goes a step further than most books on grammar by providing an overview of the field, with a discussion of historical and current debates about grammar, and how we define, discuss, and approach it. Presents a novel, inquiry-based approach to understanding speakers' unconscious knowledge of English grammar Makes lucid connections, when relevant, with current linguistic theory Integrates language change and variation into the study of grammar Examines historical sources of socially evaluative perceptions of grammar, as 'good' or 'bad', and notions of language authority Provides syntactic explanations for many modern punctuation rules Explores some of the current controversies about grammar teaching in school and the role of Standard English in testing and assessment English Grammar in Familiar Lectures, Accompanied by A Compendium Samuel Kirkham 1833
