Pinellas Voter Guide Local Races Primary Election August 23, 2022

A: Pinellas County is “ground zero” for the impact of sea level rise and it must be considered in any development decisions that we make. Our natural environment is a large part of what attracts investments here and we must protect it. To do so, we must direct growth away from sensitive areas, preserve green space, and focus residential

ILCD Handbook - General guide on LCA - Detailed guidance

"Meso/macro-level decision support": Life cycle based decision support at a strategic level (e.g.

raw materials strategies, technology scenarios, policy options). “Meso/macro-level decisions” are assumed to have structural consequences outside the decision-context, i.e. they are supposed to change available production capacity.

Understanding and measuring womens economic empowerment

economic growth, poverty reduction, health, education and welfare. In the last five years, a broad range of organizations have com-mitted themselves to the goal of women’s economic empowerment. These organiza-tions realize that economically empowering women is a win-win that can benefit not only women, but society more broadly. It

Episode 1: In Sickness & in Wealth - UNNATURAL CAUSES

1. Class status correlates with health outcomes: a. Our economic, social and built environments shape health b. People who are middle to lower on the class pyramid are exposed to more health threats (material deprivation to chronic stressors) and have less access to the opportunities and resources needed to control their destinies. c.
