Ulysses and Us Declan Kiberd 2010-06-03 In *Ulysses and Us*, Declan Kiberd argues that James Joyce's *Ulysses* offers a humane vision of a more tolerant and decent life under the dreadful pressures of the modern world. As much a guide to contemporary life as it is virtuoso work of literary criticism, *Ulysses and Us* offers revolutionary insights to the scholar and the first-time reader alike. Leopold Bloom, the half-Jewish Irishman who is the hero of James Joyce's *Ulysses*, teaches the young Stephen Dedalus (modelled on Joyce himself) how he can grow and mature as an artist and an adult human being. Bloom has learned to live with contradictions, with anxiety and sexual jealousy, and with the rudeness and racism of the people he encounters in the city streets, and in his apparently banal way sees deeper than any of them. He embodies an intensely ordinary kind of wisdom, Kiberd argues, and in this way offers us a model for living well, in the tradition of the literature upon which Joyce drew in writing *Ulysses*, such as Homer, Dante and the Bible. 'Declan Kiberd's brilliantly informed and highly entertaining advocacy liberates Joyce's greatest book from the dungeon of unreadable masterpieces.' Joseph O'Connor

The Science of Superheroes Lois H. Gresh 2003-09-29 The truth about superpowers . . . science fact or science fiction? "An entertaining and informative guide to comic book wonders bound to come." —Julius Schwartz, Editor Emeritus, DC Comics Superman, Batman, The X-Men, Flash, Spider Man . . . they protect us from evildoers, defend truth and justice, and, occasionally, save our planet from certain doom. Yet, how much do we understand about their powers? In this engaging yet serious work, Lois Gresh and Robert Weinberg attempt to answer that question once and for all. From X-ray vision to psychokinesis, invisibility to lightspeed locomotion, they take a hard, scientific look at the powers possessed by all of our most revered superheroes, and a few of the lesser ones, in an attempt to sort fact from fantasy. In the process, they unearth some shocking truths that will unsettle, alarm, and even terrify all but the most fiendish of supervillains. Lois Gresh (Rochester, NY) has written eight novels and nonfiction books as well as dozens of short stories and has been nominated for national fiction awards six times. Robert Weinberg (Oak Forest, IL) is a multiple award-winning author of novels, nonfiction books, short stories and comics.

The Uninvited Guests Sadie Jones 2012-05-01 "The opening pages read like an episode of *Downton Abbey*...But Jones has something more uncanny in mind, and when the party is interrupted by survivors of a nearby train wreck, the comedy of manners turns downright surreal...Jones's effervescent writing keeps the course steady-even as her characters shed their civilized veneers." — Ellen Shapiro, *People* magazine (four star review) A grand old manor house deep in the English countryside will open its doors to reveal the story of an unexpectedly dramatic day in the life of one eccentric, rather dysfunctional, and entirely unforgettable family. Set in the early years of the twentieth century, award-winning author Sadie Jones's *The Uninvited Guests* is, in the words of Jacqueline Winspear, the *New York Times* bestselling author of the *Maisie Dobbs* mysteries *A Lesson in Secrets* and *Elegy for Eddie*, "a sinister tragi-comedy of errors, in which the dark underbelly of human nature is revealed in true Shakespearean fashion."

Religion, Secularism, and Constitutional Democracy Jean L. Cohen 2015-12-22 Polarization between political religionists and militant secularists on both sides of the Atlantic is on the rise. Critically engaging with traditional secularism and religious accommodationism, this collection introduces a constitutional secularism that robustly meets contemporary challenges. It identifies which connections between religion and the state are compatible with the liberal, republican, and democratic principles of constitutional democracy and assesses the success of their implementation in the birthplace of political secularism: the United States and Western Europe. Approaching this issue from philosophical, legal, historical, political, and sociological perspectives, the contributors wage a thorough defense of their project's theoretical and institutional legitimacy. Their work brings fresh insight to debates over the balance of human rights and religious freedom, the proper definition of a nonestablishment norm, and the relationship between sovereignty and legal pluralism. They discuss the genealogy of and tensions involving international legal rights to religious freedom, religious symbols in public spaces, religious arguments in public debates, the jurisdiction of religious authorities in personal law, and the dilemmas of religious accommodation in national constitutions and public policy when it violates international human rights agreements or liberal-democratic principles. If we profoundly rethink the concepts of religion and secularism, these thinkers argue, a principled adjudication of competing claims becomes possible.

Calvin's Calvinism Jean Calvin 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1856 edition. Excerpt: ... observes, "Whom He will, He hardeneth." He would not have added this unless, under the expression "raised thee up," he had meant to comprehend that purpose of God, by which Pharaoh was ordained to magnify, by his obstinacy, the redemption of God's people, Israel. For if any one should say, that Pharaoh's being "raised up" signified his being raised from above to the summit of kingly honour; that indeed is some part, but not the whole, of the matter. For the LXX. Greek interpreters have here used the same expression as that by which they render the verb Hiphil, derived from the radical Kum "to arise." Moreover, God is said to "raise up" that, which He causes, by an outstretched arm, as it were, to accomplish the end He has ordained. The Scripture here principally looks at the beginning, or first-cause, of that which it is recording; that it may ascribe the whole to God alone. In this same manner, God is also said to "raise up" prophets, and ministers of salvation; that no man might claim any of these things to himself, on the ground of his own industry. Therefore, the meaning of Moses has been faithfully expressed by the term, "raised up," if you will but so receive it; nor did Paul receive it otherwise. And most certainly, the expression "raised up" comprehends, not less distinctly than summarily, what he had touched upon, both concerning the elect, and the reprobate; since he is claiming for God the right and the power to have mercy on whom He will, and to harden whom He will, according to his own pleasure and purpose. The apostle therefore maintains, that the right of hardening, and of showing mercy, is in the power of God alone; and that no law can be imposed on him as a rule for his works; because no law or rule can be thought of, ...

Straphanger Taras Grescoe 2012-04-24 Taras Grescoe rides the rails all over the world and makes an elegant and impassioned case for the imminent end of car culture and the coming transportation revolution "I am proud to call myself a straphanger," writes Taras Grescoe. The perception of public transportation in America is often unflattering—a squalid last resort for those with one too many drunk-driving charges, too poor to afford insurance, or too decrepit to get behind the wheel of a car. Indeed, a century of auto-centric culture and city planning has left most of the country with public transportation that is underfunded, ill maintained, and ill conceived. But as the demand for petroleum is fast outpacing the world's supply, a revolution in transportation is under way. Grescoe explores the ascendance of the straphangers—the growing number of people who rely on public transportation to go about the business of their daily lives. On a journey that takes him around the world—from New York to Moscow, Paris, Copenhagen, Tokyo, Bogotá, Phoenix, Portland, Vancouver, and Philadelphia—Grescoe profiles public transportation here and abroad, highlighting the people and ideas that may help undo the damage that car-centric planning has done to our cities and create convenient, affordable, and sustainable urban transportation—and better city living—for all.

Pheromone Christopher Marley 2008 Christopher Marley's graceful arrangements of jewel-like arthropods make converts of those who have long seen insects as creepy—these are stunning works of art. Marley's keen eye for design combines with his entomological education to produce mesmerizing, kaleidoscopic bug mandalas and striking up-close-and-personal single-insect portraits. Neither painted nor digitally enhanced, the artist's subjects appear in this book just as they would if you found one on your screen door. Each gorgeous creation is identified with its scientific and common names, and many are accompanied by concise descriptive text. In succinct essays, Marley writes about insect collecting and its benefits to the environment; he describes his creative process in choosing and arranging the creatures for optimal visual effect. After a childhood spent running from every creature that skittered about on more than four legs, Marley has devoted much of his adult life to studying bugs—with increasing fascination. He makes frequent forays to remote locations far removed from his home in Oregon, seeking out the most beautiful and exotic species on Earth.

Undressing Cinema Stella Bruzzi 2012-10-12 From Audrey Hepburn in Givenchy, to sharp-suited gangsters in Tarantino movies, clothing is central to film. In *Undressing Cinema*, Stella Bruzzi explores how far from being mere accessories, clothes are key elements in the construction of cinematic identities, and she proposes new and dynamic links between cinema, fashion and costume history, gender, queer theory and psychoanalysis. Bruzzi uses case studies drawn from contemporary popular cinema to reassess established ideas about costume and fashion in cinema, and to challenge conventional interpretations of how masculinity and femininity are constructed through clothing. Her wide-ranging study encompasses: * haute couture in film and the rise of the movie fashion designer, from Givenchy to Gaultier * the eroticism of period costume in films such as *The Piano* and *The Age of Innocence* * clothing the modern femme fatale in *Single White Female*, *Disclosure* and *The Last Seduction* * generic male chic in *Goodfellas*, *Reservoir Dogs*, and *Leon* * pride, costume and masculinity in 'Blaxploitation' films, *Boyz n' The Hood* and *New Jack City* * drag and gender confusion in cinema, from the unerotic cross-dressing of Mrs Doubtfire to the eroticised ambiguity of Orlando.

Ecohumanism Robert B. Tapp 2002 Humanists are sometimes accused of being so focused on the human race that they ignore the environment and other species. This book is designed to address these criticisms. The contributors, all humanists in the naturalistic tradition, show that in fact humanism as a worldview has much to offer environmentalism. Since humanists are committed to working for a global community in which all humans can flourish, they are as concerned about ecological degradation as environmentalists. But in regard to what should be done about environmental problems, humanists do not hesitate to use the best scientific information and technology to reclaim the natural world while ensuring the welfare of all human beings. Humanists stress that science and technology must be used responsibly and that human beings must learn to give up destructive ideological fantasies, whether political or religious. The contributors are Vern L. Bullough, Gwen Whitehead Brewer, Richard Gilbert, Michael J. Kami, Gerald Larue, Timothy J. Madigan, Sarah Oelberg, Don Page, Howard B. Radest, Philip J. Regal, Andreas Rosenberg, Harvey Sarles, David Schafer, John M. Swomley, Robert B. Tapp, Michael Werner, and Carol Wintermute.
