The Semiotic Sphere Thomas A. Sebeok 2012-12-06 Although semiotics has, in one guise or another, flourished uninterruptedly since pre Socratic times in the West, and important semiotic themes have emerged and developed independently in both the Brahmanic and Buddhist traditions, semiotics as an organized undertaking began to bloom only in the 1960s. Workshops materialized, with a perhaps surprising spontaneity, over much of Europe—Eastern and Western and in North America. Thereafter, others quickly surfaced almost everywhere over the literate globe. Different places strategically allied themselves with different legacies, but all had a common thrust: to aim at a general theory of signs, by way of a description of different sign systems, their comparative analysis, and their classification. More or less permanent confederations were forged with the most diverse academic disciplines, and amazingly varied frameworks were devised—suited to the needs of the times and the sites—to carry the work of consolidation forward. Bit by bit, mutually supportive international networks were put together. Today, it can truly be asserted that semiotics has become a global enterprise. This, of course, is far from saying that the map is uniform or even that world-wide homogeneity is in the least desirable. While our conjoint ultimate goal remains steadily in focus, the multiplicity of avenues available for its realization is inherent in the advent of the search itself.

The Romance-Speaking Balkans 2021-03-22 This volume investigates the complex relationship between language and identity of the peoples speaking Romance languages in the Balkans, offering a thorough sociolinguistic and anthropological account on this crossroads region.

Vocabulary and Language Teaching Ronald Carter 2014-06-06 The material in this book reviews work dating back to the vocabulary control movement in the 1930s and also refers to more recent work on the role of lexis in language learning. Two chapters describe the main foundations of lexical semantics and relevant research and pedagogical studies in vocabulary and lexicography; and a further chapter discusses recent advances in the field of lexis and discourse analysis. There is also a series of specially commissioned articles which investigate the structure and functions of the modern English lexicon in relation to its exploitation for classroom vocabulary teaching.

Psihopedagogie specială. Modele de evaluare și intervenție Adrian Roșan 2016-06-14 Volumul abordează diferitele aspecte ale psihopedagogiei speciale, urmărind educația, terapia și reabilitarea persoanelor cu nevoi speciale în cadrul instituțiilor specializate. Sunt prezentate tipurile de dizabilități, sindroame și tulburări specifice, terapii multidisciplinare și tehnici de coping, elemente de dezvoltare curriculară și programe de intervenție timpurie, sisteme de comunicare și servicii de consiliere. Metodele de recuperare propuse au la bază cele mai recente descoperiri din domeniile geneticii umane, neurotiințelor și neuropsihologiei, dar și din ariile psihopedagogiei speciale, psihologiei dezvoltării, ergonomiei și tehnologiilor informatice de acces. Pentru o mai bună înțelegere a conceptelor expuse, în volum au fost incluse studii de caz și exemple practice, precum și un glosar de termeni.

Anglo-American Perceptions of Hellenism Tatiani Rapatzikou 2008-12-18 In this volume an attempt is made to tackle Hellenism as a global and transcultural entity. Through an array of essays, this book constitutes a comparative study of various literary, cultural and artistic trends as these develop throughout the course of the eighteenth, nineteenth and twentieth centuries on both sides of the Atlantic. Having been designed with the general as well as the specialized reader in mind, this book will prove to be a valuable guide to scholars, undergraduate and postgraduate students as well as to a broad spectrum of readers with an interest in comparative literature, cultural history, history of the classical heritage, transatlantic studies, English and American romantic, modernist and postmodernist narratives. Its diverse material falls under the umbrella terms of "English Hellenisms" and "American Hellenisms" with the intention of enhancing intercultural dialogue and understanding. By embracing multivocality, as proven by the number of articles it contains, this book proves the tenacity, diachronic and intercontinental appeal of Hellenism at the era of multiculturalism and globalization.
