The elementary school journal 1970

A History of Literacy Education Robert J. Tierney 2021 In this volume, two notable scholars trace the monumental shifts in theory, research, and practice related to reading education and literacy, with particular attention to what they consider the central goal of literacy—making meaning. Each section describes a specific epoch, including a brief snapshot of how the reader of that period is envisioned and characterized by researchers and teachers, as well as a deep discussion of the ideas and contextual events of that era. These developmental waves are organized in rough historical sequence by a series of shifts in underlying theoretical and scholarly lenses—from the behavioral to the psycholinguistic to the cognitive to the sociocultural to the critical to the multimodal to the global. The book closes with a discussion of the various research frames and methodological approaches that paralleled these developments. Throughout, there is a profound recognition that all research and practice are ultimately directed toward how students make meaning, from sound to letter to word, to ideas and images. Book Features: Animates some of the revolutionary developments related to reading education and literacy in modern times. Each development is accompanied by a discussion of the aspirational reader that sets the stage for contemplating these shifts and their significance. Traces the research and theoretical developments to illustrate the origins of the shifts and their influences. Supported by a website with video lectures and conversations tied to the various waves of development.

Teaching Reading in Today's Elementary Schools Betty Roe 2018-02-08 TEACHING READING IN TODAY'S ELEMENTARY SCHOOLS sets the standard for reading instruction to ensure that aspiring teachers are able to help students learn the mechanics of word recognition, how to comprehend

what they read -- and enjoy the process. The book advocates a balanced approach to reading, presenting newer approaches with more traditional approaches that have proven value, such as phonics, vocabulary instruction, and strategies for literal and higher-order comprehension. Practices are featured, such as use of recent technologies for literacy learning, varying approaches with attention to dealing with the many types of diverse learners in today's classrooms, and use of close reading techniques with appropriate materials to enhance the learning experience. New chapters are devoted to diversity and fluency. Praxis, CCSS, and edTPA assistance is also incorporated. Intensifying Classroom Routines in Reading and Writing Programs Michael P. Ford 2017 Three common routines are seen in almost every primary language arts programs: morning messages, shared readings, and word walls. These routines should be integrated to support the total language arts program, but are teachers of grades K-2 getting the most bang for their buck out of these activities? Morning messages can become very routinized and repeat the same experiences over and over again. Shared readings are sometimes conducted with little variation in spite of changing demands from the texts being used and changing needs in the learners with whom they are being used. Word walls might be put up with some attention early in the year and remain virtually unchanged as the year moves forward. Intensifying Classroom Routines in Reading and Writing Programs focuses on how teachers can get more instructional mileage out of these three common classroom routines. Author Michael P. Ford lays out step-by-step, day-by-day plans to put those three key routines on a cycle that changes as students move through developmental phases. This resource helps teachers plan for emergent and early readers and writers. It also looks at how teachers can assist students as they move through critical areas, including concepts of print, alphabetic knowledge, phonological awareness, sound-symbol relationships, high-frequency words, structural analysis, context clues, comprehension strategies, and composition strategies. With these intensified routines in place, students will clearly see connections between reading and writing.
