**99 More Ideas and Activities for Teaching English Learners with the SIOP® Model** MaryEllen Vogt 2014 "Ready-to-use ideas and activities to make SIOP work in your classroom." The SIOP(R) model is proven to be one of the most effective methods of teaching our English learners. Now teaching with SIOP is even easier with the second volume of Vogt, Echevarria, and Washam's "99 MORE Ideas and Activities for Teaching English Learners with the SIOP"(R)" Model. "Offering brand new, classroom-ready activities, this indispensable resource revisits SIOP(R) and shows how to use it each day in the classroom. Whether searching for activities that build vocabulary, keep students highly engaged, or make content concepts clear, these teacher-tested strategies adhere to SIOP(R) principles and reinforce best practice. Chapters are organized around SIOP(R)'s eight components and thirty features, so teachers learn not only what activities to try, but also why they work. With its dual focus on implementation and understanding, this must-have resource helps you create a classroom where students progress both academically and in their English language proficiency. Provides 99 ready-to-use ideas for implementing the SIOP(R) model into your classroom. Contains all new, never-before-published SIOP(R) strategies to keep your course current and unique. Explains the SIOP(R) teaching model (8 components and 30 features) before presenting classroom ideas so you understand the why behind the what. Promotes student-to-student and teacher-to-student interactions and involvement with each exercise. Includes step-by-step directions and examples of content and language objectives for each idea and activity. Includes six sample SIOP(R) lesson plans (Chapter 10) to reinforce how to teach English learners with this proven methodology. Offers classroom photographs and examples of student work to show ideas in action. Features a quick-find index and TOC so classroom ideas are easy to try.

**The Trouble with Siop(r)** James Crawford 2015-02-13 Among all the commercial "learning systems" on the market today, how many are advertised as "research-based?" Perhaps it would be easier to count those that are not. Such claims are so widespread that they are seldom taken seriously by experienced educators. At times, however, marketing becomes clever enough to cut through the skepticism. The more extravagant the promises, it seems, the more credible the product becomes. This book tells the story of one such case: the Sheltered Instruction Observation Protocol, or SIOP.(r) Imagine a program developed by an obscure research center. SIOP starts out as a modest tool for evaluating the effectiveness of instruction for children whose English is limited, but soon morphs into something much more ambitious. It now purports to be a detailed "lesson planning and delivery approach" for grades K-12, aligned with state standards and tests. Simultaneously, it outlines a comprehensive design for teacher training and evaluation. Acquired by a major publisher, SIOP is advertised as "field tested ... scientifically validated ... a proven pedagogical approach to teaching both content knowledge and language skills [that] has helped to instruct millions of students." The program's market is expanded far beyond the classrooms of English language learners. It is promoted as an effective model for English-proficient students as well, appropriate not only for K-12 but also for early childhood education, foreign language instruction, GED and adult English programs, and even two-way bilingual education. There are old-time patent medicines that made fewer claims. Is SIOP a truly miraculous pedagogy - good for whatever ails you? Or is it a classic example of "research-based" hype? "The Trouble with SIOP(r)" was inspired by a chorus of complaints from teachers, who are increasingly required to apply the model by top-down directives. Recognizing that SIOP has thus far faced limited critical scrutiny, authors James Crawford and Sharon Adelman Reyes set out to determine: First, is this rigid approach, which requires teachers to incorporate "30 features and eight components" into every lesson, necessary to foster English acquisition and academic achievement? Or does SIOP, as a classic transmission model, impose a straitjacket on creative teaching and learning? Are there better ways to "shelter" and "scaffold" instruction? Second, does this heterogeneous mixture of methodologies and strategies reflect a coherent educational philosophy, consistent with research on second language acquisition? Or is SIOP essentially a grab-bag of "best practices," with a heavy emphasis on behaviorist methods? Finally, does research on this program support the lavish claims made on its behalf? Or is the What Works Clearinghouse at the U.S. Department of Education correct in concluding that none of the studies conducted thus far have demonstrated SIOP's effectiveness? The answers provided by "The Trouble with SIOP(r)" should interest those concerned not only with the education of English language learners, but also with the pernicious impact of commercial pedagogies in American classroom

**Hate That Cat** Sharon Creech 2014-12-23 Return to Miss Stretchberry's class with Jack, the reluctant poet, who over the course of a year encounters new and challenging things like metaphors, alliterations, onomatopoeia, and one mean fat black cat! The Newbery Medal-winning author of *Walk Two Moons*, Sharon Creech, introduced Jack in *Love That Dog*, a New York Times bestseller. Both *Love That Dog* and *Hate That Cat* are approachable, funny, warm-hearted introductions to poetry told from the point of view of a very real kid wrestling with school assignments. These books are fast reads that will be welcomed by middle graders as they too wonder how poetry and schoolwork connect with their interests and how to uncover their true voices. In *Hate That Cat*, Jack is only trying to save that fat black cat stuck in the tree by his bus stop—but the cat scratches him instead! At school Miss Stretchberry begins teaching new poems, everything from William Carlos Williams to Valerie Worth to T.S. Eliot. As the year progresses, Jack gradually learns to love that cat and finds new ways to express himself.

**Teaching Science to English Language Learners** Luciana C. de Oliveira 2017-09-18 This edited collection explores how science can be taught to English language learners (ELLs) in 21st century classrooms. The authors focus on the ways in which pre-service and in-service science teachers have developed—or may develop—instructional effectiveness for working with ELLs in the secondary classroom. Chapter topics are grounded in both research and practice, addressing a range of timely topics including the current state of ELL education in the secondary science classroom, approaches to leveraging the talents and strengths of bilingual students in heterogeneous classrooms, best practices in teaching science to multilingual students, and ways to infuse the secondary science teacher preparation curriculum with ELL pedagogy. This book will appeal to an audience beyond secondary content area teachers and teacher educators to all teachers of ELLs, teacher educators and researchers of language acquisition more broadly.

**Lockheed Blackbird** Paul F Crickmore 2016-11-17 In 1986 Paul Crickmore's first groundbreaking book about the Lockheed SR-71 Blackbird was published. At that time, the Cold War was at its height and the SR-71 was an integral element in securing crucial intelligence from all parts of the globe. The highly sensitive nature of its missions couldn't be compromised, and it wasn't until the end of the Cold War that the operational exploits of this incredible aeronautical masterpiece could be openly written about. As time passed has more and more information has come to light, with a vast number of official documents declassified and key military figures

able to talk openly about the Blackbird programme. Paul Crickmore has used these updated facts to revise his previous history of one of the world's most iconic aircraft of all time, creating what will surely be considered the definitive, timeless volume about the SR-71 Blackbird.

**Things That Float and Things That Don't** David A. Adler 2013-07-10 It can be surprising which objects float and which don't. An apple floats, but a ball of aluminum foil does not. If that same ball of foil is shaped into a boat, it floats! Why? And how is it possible that a huge ship made of steel can float? Answering these questions about density and flotation is David A. Adler's clear, concise text, paired with Anna Raff's delightful illustrations. Activities that demonstrate the properties of flotation are included.

**Making Content Comprehensible for English Learners** Jana Echevarria 2004 Like no other text on the market, "Making Content Comprehensible" presents an empirically validated model of sheltered instruction. This text contains the Sheltered Instruction Observation Protocol (SIOP) model, which provides school administrators, staff developers, teachers, teacher candidates, university faculty, and field experience supervisors with a tool for "observing and quantifying" a teacher's implementation of quality sheltered instruction. New to This Edition A new, additional chapter addresses the issue of English learners who are struggling readers and/or students with disabilities by including detailed information about learning disabilities and delayed development in reading (Ch. 10). Revised vignettes present teaching scenarios where three teachers teaching the same grade level and content attempt to include the focal SIOP indicators, with varying degrees of success. Complete lesson descriptors allow readers to score the three teaching scenarios and help readers develop a degree of inter-rater reliability. New pedagogy! Each chapter contains: A graphic organizer that provides an overview of the chapter. "Background Sections" that include descriptions of the 8 sections and 30 indicators of the SIOP to help readers plan and prepare effective sheltered lessons. "Background Discussion Questions" appropriate for portfolio development in pre-service and graduate classes, for professional development workshops, or for reflection. The new, larger trim size facilitates using in the classroom the SIOP long and short versions and the lesson plan forms and rating vignettes. Includes both the full SIOP and an abbreviated version for the reader's use. Two different SIOP lesson plan formats that can be used for planning and preparation, depending on your needs. An Appendix contains the results of studies that demonstrate that English learners whose teachers used the SIOP model outperformed similar students whose teachers did not implement the model.

"Making Content Comprehensible" is very practical and right on target for strategies in the field of ELLs." Professor Gerald McCain, "Southern Oregon University" "What clearly distinguishes" Making Content Comprehensible "from others in the field is that it provides an easy-to-use, powerful, field-tested protocol for effective lesson planning, delivery and assessment." Professor Karen L. Newman, "Indiana University" "The strength of Making Content Comprehensible is the clear picture it provides of instruction and the teaching scenarios. The discussion of the teaching techniques and evaluation of each of the three teachers provides invaluable examples for the student." Professor Judith B. O'Loughlin, "New Jersey City University" Author Bios: Dr. Jana Echevarria is Chair of the Department of Educational Psychology, Administration and Counseling at California State University, Long Beach. Formerly she was a professor of Special Education. Her professional experience includes elementary and secondary teaching in special education, ESL and bilingual programs. She has lived in Taiwan and Mexico where she taught ESL and second language acquisition courses at the university level, as well as in Spain where she conducted research on instructional programs for immigrant students. After receiving a Masters Degree in Bilingual Special Education from California State University, Long Beach, she received her Ph.D. from UCLA and was one of the recipients of the National Association for Bilingual Education's Outstanding Dissertations Competition. Her research and publications focus on effective instruction for language minority students, particularly those with learning disabilities. Mary Ellen Vogt is Professor and Director of Graduate Studies in Reading at California State University, Long Beach. Prior to her work at the university, she was a reading specialist at the school and district levels. Dr. Vogt is a past president of the California Reading Association, and served on the Board of Directors of the International Reading Association. *The Boy Who Harnessed the Wind* William Kamkwamba 2015-02-05 Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation,

one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.

**Naval Power in the Twentieth Century** N.A.M. Rodger 2016-07-27 It is a century since Mahan and his disciples taught the world that a battlefleet was indispensable to a great power. Great and not so great powers still keep powerful navies today, but we have no generally-accepted principles to explain why. In this book historians and naval officers from Britain, the United States and other countries study the use of naval power over a century, and ask what it is for, and what it can do. It will be essential reading for modern historians, policy-makers and strategists.

**Teaching English Language Learners Through Technology** Tony Erben 2008-09-01 In *Teaching English Language Learners through Technology*, the authors explore the use of computers/technology as a pedagogical tool to aid in the appropriate instruction of ELLs across all content areas. The special focus of this book is on the informed use of various technologies and software programs that can specifically aid ELLs. Strategies are also provided for varying levels of access—whether teachers teach in a one computer classroom, have access to multiple computers, or have the ability to go into a computer lab at their school. A fully annotated list of web and print resources completes the volume, making this a valuable reference to help teachers harness the power of computer-assisted technologies in meeting the challenges of including all learners in effective instruction.
