**Comparing Husserl's Phenomenology and Chinese Yogacara in a Multicultural World** Jingjing Li 2022-04-07 While phenomenology and Yogacara Buddhism are both known for their investigations of consciousness, there exists a core tension between them: phenomenology affirms the existence of essence, whereas Yogacara Buddhism argues that everything is empty of essence (svabhava). How is constructive cultural exchange possible when traditions hold such contradictory views? Answering this question and positioning both philosophical traditions in their respective intellectual and linguistic contexts, Jingjing Li argues that what Edmund Husserl means by essence differs from what Chinese Yogacarins mean by svabhava, partly because Husserl problematizes the substantialist understanding of essence in European philosophy. Furthermore, she reveals that Chinese Yogacara has developed an account of self-transformation, ethics and social ontology that renders it much more than simply a Buddhist version of Husserlian phenomenology. Detailing the process of finding a middle ground between the two traditions, this book demonstrates how both can thrive together in order to overcome Orientalism.

In that place where you're more asleep than awake any more, I hear something else. A phrase uttered in a child's voice, no more than a whisper: Night Night. Something freaky's going on with Sunshine's new house . . . there's the chill that wraps itself around her bones, the giggling she can hear in the dead of night, and then the strange shadows that lurk in her photographs. But the more weird stuff that happens, the less her mum believes her. Sunshine's always had a quirky affiliation with the past, but this time, history is getting much too close for comfort . . . If there is something, or someone, haunting her house, what do they want? And what will they do if Sunshine can't help them? As things become more frightening and dangerous, and the giggles she hears turn to sobs and screams, Sunshine has no choice but to accept what she is, face the test before her and save her mother from a fate worse than death.

**The Path of Kabbalah** Michael Laitman 2005-01-01 Kabbalists state that there is no reality at all, but something called His Essence, the Upper Force, and this is what we perceive as our world. As uncanny as it sounds, this notion hides in its wings the very prospect of freedom, for every person, for every nation, and for the entire world. The structure and the perception of reality are the surface of this book. But the story of humanity, or more accurately, of the human soul, is the undercurrent that drives the reader forward in this book. It is about you, about me, about all of us. This book is about the way we were, the way we are, the way we will be, and most importantly, it is about the best way to get there. In this neatly structured composition, every part speaks of a different aspect of Kabbalah. It starts with our perception of reality, our perception of the Creator, and the evolution of our soul in the spiritual worlds (including explanatory drawings). The book also clears up misconceptions about Kabbalah and explains, in plain words, how to experience the spiritual realm of our lives.

**The Awakening Time** Diana M. Olson 2019-03-15 The author intuitively knew that she and her "new" man were brought together for a very special purpose, prompting matrimony and mid-life career changes to become hypnotherapists; it's as if a higher power sweeps them into a 180 degree spin and a whirlwind of learning experiences. A visit to a psychic fair and a visit to a rock and gem shop thrusts them headlong into an incredible world of rocks and crystals, automatic writing and channeling, awakening psychic abilities and giving them inspiration to teach others how to reach beyond their present realities. And a small quartz crystal "tells" of an ancient promise, as vow to meet in this, "The Awakening Time". Conversations with spiritual guides contain a wealth of information almost too incredible to grasp. A must for both beginner and experienced "seekers."

**Confronting Injustice without Compromising Truth Study Guide** Thaddeus J. Williams 2022-06-28 God does not suggest, he commands that we do justice. Social justice is not optional for the Christian. All injustice affects others, so talking about justice that isn't social is like talking about water that isn't wet or a square with no right angles. But the Bible's call to seek justice is not a call to superficial, kneejerk activism. We are not merely commanded to execute justice, but to "truly execute justice." The God who commands us to seek justice is the same God who commands us to

"test everything" and "hold fast to what is good." Drawing from a diverse range of theologians, sociologists, artists, and activists, Thaddeus Williams builds a case that we must be discerning if we are to "truly execute justice" as Scripture commands. Not everything called "social justice" today is compatible with a biblical vision of a better world. The Bible offers hopeful and distinctive answers to deep questions of worship, community, salvation, and knowledge that ought to mark a uniquely Christian pursuit of justice. In the Confronting Injustice without Compromising Truth Study Guide, Williams confronts our religious and political tribalism and challenges readers to discover what the Bible and the example of Jesus have to teach us about justice. He presents a compelling vision of justice for all God's image-bearers that offers hopeful answers to life's biggest questions.

**The Descent of Love** Bert Bender 2015-11-16 These authors embraced and incorporated Darwin's theories, insights, and language, creating an increasingly dark and violent view of sexual love in American realist literature. In *The Descent of Love*, Bender carefully rereads the works of William Dean Howells, Henry James, Elizabeth Stuart Phelps, Sarah Orne Jewett, Kate Chopin, Harold Frederic, Charles W. Chesnut, Edith Wharton, and Ernest Hemingway, teasing from them a startling but utterly convincing preoccupation with questions of sexual selection. Competing for readership as novelists who best grasped the "real" nature of human love, these writers also participated in a heated social debate over racial and sexual differences and the nature of sex itself. Influenced more by *The Descent of Man* than by *The Origin of Species*, Bender's novelists built upon Darwin's anthropological and zoological materials to anatomize their characters' courtship behavior, returning consistently to concerns with physical beauty, natural dominance, and the power to select a mate.
