He resolves (and fails) to live every day as if it were his last, joins the Foreign Legion, jives in Macca's trousers, shares the pain of Mr Sappho and Lord Godiva and plans a prison break. With his inimitable warmth, wit and wordplay, Roger McGough affirms his position as the pre-eminent poet of the magic moment – the happy collision of life, language and the imagination.

**Collected Poems** Roger McGough 2004-11-25 Roger McGough is one of Britain's best loved poets and this collection 'charts [his] passage from youthful exuberance to the wry reflection of his later years. What remains the same throughout the 40 years is the poet's winning wit, accessibility and abiding readability' Independent ----- 'Time has confirmed ... that McGough's talent was much more substantial than many of his long-forgotten detractors suspected. If he was a pop poet it was not in any ephemeral sense. A shy extrovert ... he has given voice to poetry and found a voice of his own which is humourful, introspective, irreverent, easy on the ear, conversational. It is also memorable and enduring and fresh. Age has not withered [his lines] nor diminished their potency. Of how much modern poetry can you say that?' Sunday Herald

**The Last Man on the Mountain: The Death of an American Adventurer** on K2 Jennifer Jordan 2011-08-01 "A fascinating tale... Readers who are into high-altitude adventure stories won't be disappointed." —Associated Press In 1939 the Savage Mountain claimed its first victim. Born into vast wealth yet uneasy with a life of leisure, Dudley Wolfe, of Boston and Rockport, Maine, set out to become the first man to climb K2, the world's second-highest mountain and, in the opinion of mountaineers, an even more formidable challenge than Mt. Everest. Although close to middle age and inexperienced at high altitude, Wolfe, with the team leader, made it higher than any other members of the expedition, but he couldn't get back down. Suffering from altitude sickness and severe dehydration, he was abandoned at nearly 25,000 feet; it would be another sixty-three years before the author discovered his remains.

**Loving Peter** Judy Cook 2008-10-02 Judy Huxtable, a beautiful Swinging Sixties model and actress, met and fell in love with Peter Cook in 1967. They were together during the memorable hit shows 'Behind the Fringe' and 'Derek and Clive', divorcing in 1989. Being intimate with Peter meant that Judy was inevitably close to Peter's comic partner, Dudley Moore, and they all formed an extraordinary bond. She was in a unique position to observe the special relationship that Peter and Dud shared, and the rivalry that existed between them. In **LOVING PETER**, Judy gives a perceptive and poignant account of the Peter Cook that only she knew. She writes with a mix of humour, insight and sadness about one of the funniest, most enigmatic and troubled men on the planet. She describes what he was like as a husband, performer, friend, father and man and gives an inside view of what really made him tick; why he seemed to want to destroy those he loved the most; how he succumbed to the destructive forces of drink and drugs; and how he and Dudley really got on.

**Selected Works of R.M. Dudley** Evarist Gin é 2010-08-13 For almost fifty years, Richard M. Dudley has been extremely influential in the development of several areas of Probability. His work on Gaussian processes led to the understanding of the basic fact that their sample boundedness and continuity should be characterized in terms of proper measures of complexity of their parameter spaces equipped with the intrinsic covariance metric. His sufficient condition for sample continuity in terms of metric entropy is widely used and was proved by X. Fernique to be necessary for stationary Gaussian processes, whereas its more subtle versions (majorizing measures) were proved by M. Talagrand to be necessary in general. Together with V. N. Vapnik and A. Y. Cernovenkis, R. M. Dudley is a founder of the modern theory of empirical processes in general spaces. His work on uniform central limit theorems (under bracketing entropy conditions and for Vapnik-Cernovenkis classes), greatly extends classical results that go back to A. N. Kolmogorov and M. D. Donsker, and became the starting point of a new line of research, continued in the work of Dudley and others, that developed empirical processes into one of the major tools in mathematical statistics and statistical learning theory. As a consequence of Dudley's early work on weak convergence of probability measures on non-separable metric spaces, the Skorohod topology on the space of regulated right-continuous functions can be replaced, in the study of weak convergence of the empirical distribution function, by the supremum norm. In a further recent step Dudley replaces this norm by the stronger p-variation norms, which then allows replacing compact differentiability of many statistical functionals, by Fr échet differentiability in the delta method. Richard M. Dudley has also made important contributions to mathematical statistics, the theory of weak convergence, relativistic Markov processes, differentiability of nonlinear operators and several other areas of mathematics. Professor Dudley has been the adviser to thirty PhD's and is a Professor of Mathematics at the Massachusetts Institute of Technology.

See You at Harry's Jo Knowles 2012-05-08 Starting middle school brings all the usual challenges — until the unthinkable happens, and Fern and her family must find a way to heal. Twelve-year-old Fern feels invisible. It seems as though everyone in her family has better things to do than pay attention to her: Mom (when she's not meditating) helps Dad run the family restaurant; Sarah is taking a gap year after high school; and Holden pretends that Mom and Dad and everyone else doesn't know he's gay, even as he fends off bullies at school. Then there's Charlie: three years old, a "surprise" baby, the center of everyone's world. He's devoted to Fern, but he's annoying, too, always getting in his way, always dirty, always commanding attention. If it wasn't for Ran, Fern's calm and positive best friend, there'd be nowhere to turn. Ran's mantra, "All will be well," is soothing in a way that nothing else seems to be. And when Ran says it, Fern can almost believe it's true. But then tragedy strikes - and Fern feels not only more alone than ever, but also responsible for the accident that has wrenched her family apart. All will not be well. Or at least all will never be the same.

Dudley's Day at Home Renee Andriani 2020-05-03 "What does Dudley do all day while we're away?" Sam wonders. Mom explains that Dudley does ordinary dog things: he eats, naps, guards the house, and plays. But in Sam's mind, Dudley's day at home is anything but ordinary. Delightful digital paintings depict the human activities Sam imagines Dudley is doing - which don't quite match Mom's explanations. Dudley's Day at Home is a funny, fetching picture book that uses minimal text and maximal visual storytelling to share a day in a dog's life.

As Far as I Know Roger McGough 2012-08-30 As Far as I Know is a wonderful new book of poems by Roger McGough, the nation's favourite poet Take comfort from this You have a book in your hand not a loaded gun or a parking fine or an invitation card to the wedding of the one you should have married Roger McGough's new book of poems shows him writing as fluently and inventively as ever. There may be a stronger strain of melancholy than before (the death of a regular in the local pub; the news that a daughter might be moving abroad), as well as a distinct sense of menace, small but insistent, which inhabits many of the poems. But there is plenty of McGough's characteristic wit and wordplay too, including a scintillating series of haiku inspired by a London tube strike and a striking reworking of his famous 1960s poem 'Let Me Die a Youngman's Death', this time entitled 'Not For Me a Youngman's Death'. Who but McGough would characterize the butcher's window as 'the friendly face of the abattoir', or imagine the almost limitless ways in which we might go to bed? A new book of poems by Roger McGough is always an event. Published just ahead of his 75th birthday, As Far As I Know is truly cause for celebration. 'The patron saint of poetry' Carol Ann Duffy Roger McGough was born in Liverpool. During the 1960s he was a member of the group Scaffold which had an international hit with 'Lily the Pink'. He has won two BAFTAs and a Royal Television Award for his broadcasting work, and presents the popular Radio 4 programme Poetry Please. He has published many books of poems for adults and children, and both his Collected Poems (2003) and Selected Poems (2006) are bestselling poetry titles on the Penguin list. He was made a Freeman of the City of Liverpool in 2001, and received a CBE in 2004 for his services to literature.
