Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a famous actor transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

The Jakarta Method Vincent Bevins 2020-05-19 NAMED ONE OF THE BEST BOOKS OF 2020 BY NPR, THE FINANCIAL TIMES, AND GQ The hidden story of the wanton slaughter -- in Indonesia, Africa, and around the world -- backed by the United States. In 1965, the U.S. government helped the Indonesian military kill approximately one million innocent civilians. This was one of the turning points of the twentieth century, eliminating the largest communist party outside China and the Soviet Union and inspiring copycat terror programs in faraway countries like Brazil. These events remain widely overlooked, precisely because the CIA's secret interventions were so successful. In this bold and comprehensive new history, Vincent Bevins builds on his incisive reporting at Washington Post, using recently declassified documents, archival research and eye-witness testimony collected across twelve countries to reveal a shocking legacy that spans the globe. He believed that parts of the developing world passed peacefully into the U.S.-led capitalist system. The Jakarta Method demonstrates that the brutal extermination of unarmed leftists was a key element of Washington's final triumph in the Cold War.

Reclaiming Parkland James DiEugenio 2013-10-01 Reclaiming Parkland details the failed attempt of Tom Hanks and Gary Goetzman—cofounder of the production company Playtone—to make Bugliosi's mammoth book about the Kennedy assassination, Reclaiming History, into a miniseries. It exposes the questionable origins of Reclaiming History in a dubious mock trial for cable TV, which Bugliosi played the role of an attorney prosecuting Lee Harvey Oswald for murder, and how this formed the basis for the epic tome. Author James DiEugenio details the myriad problems with the book, and explores the cooperation of the mainstream press in concealing these many faults during the publicity campaign for the book and how this lack of scrutiny led Hanks and Goetzman to lose their film rights. DiEugenio then shows how the film eventually adapted from that book, entitled Parkland, does not even resemble Reclaiming History, though the script for that film displays the same Reclaiming History does. Reclaiming Parkland also includes extended looks at the little-known aspects of the lives and careers of Bugliosi, Hanks, and Goetzman—including Bugliosi's three political offices and a review of the Tate-LaBianca murders in the light of today's knowledge of that case. DiEugenio also looks at the connections between Washington and Hollywood, as well as the influence in the film colony today. Reclaiming Parkland is a truly unique book that delves into the Kennedy assassination, the New Hollywood, and the political influence on how films are made. Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the Kennedy assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish is a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

Survivor's Guilt Vincent Palamara 2013-10-01 Painstakingly researched by an authority on the history of the Secret Service and based on primary, firsthand accounts from more than 80 former Secret Service House aides, and family members, this is the definitive account of what went wrong with John F. Kennedy's security detail on the day he was assassinated. The work provides a detailed look at the assassination and should have been protected and debunks numerous fraudulent notions that persist about the day in question, including that JFK ordered agents off the rear of his limousine; demanded that the Secret Service bubble top that covered the vehicle; and was difficult to protect and somehow, directly or indirectly, made his own tragic death easier for an assassin or assassins. This book also thoroughly examines the threats on the president's life before traveling to Texas; the presence of unauthorized Secret Service agents in Dealey Plaza, the site of the assassination; the failure of the Secret Service to secure the surrounding buildings, overhangs, and rooftops; and the surprising conspiratorial beliefs of several former agents. An important addition to the canon of works on JFK and his assassination, this study sheds light on the gross negligence and, in some cases, seeming culpability, of those sworn to protect the president.
